Now bigger and better

The success of the CADET should be further compounded with the launch of the new 1400mm wide CA DET PLUS which offers an even wider selection of uncoated media, reduced running costs and faster print speeds.

A real business builder

A Uniform CADET PLUS can really build your colour business. Time and again this has proven to be the case, with many CADET users quickly installing additional Uniform equipment to meet the demand they have created for vibrant, eye-catching full colour and high impact photographic signage.

Versatile colour production.

The CADET PLUS really is a signmaking superstar, equally able to produce display panels, single operation print and cut decals, point of sale displays, vehicle livery, bespoke backlit signage, banners, and much more besides.

Choice of 3 ink sets

You can pick from ActivaSOL active solvent inks, Eco Solvent Ink or CitroSOL organic solvent inks. This allows you to use a CADET PLUS in any work environment, from home office to factory. Whichever ink you choose, you get durability and wear resistance that sets you apart from the competition and helps to ensure you win more colour business.
